# Mission, Vision & Values

---

## Mission

---

Champlain Regional College is a public, English-language, post-secondary institution that provides pre-university and technical college-level education and training, primarily in English, to learners in both Regular Day and Continuing Education programs. The College, through its unique multi-regional structure, responds to the needs of diverse linguistic and cultural communities and contributes to the educational and socio-economic development of the regions of Quebec served by Champlain – Lennoxville, Champlain – St. Lambert and Champlain – St. Lawrence.

The College is dedicated to fostering the individual success of its students and their development as well-rounded, responsible and informed citizens of the world.

---

## Vision

---

Passionate in its commitment to students, and inspired by its mission and values, Champlain Regional College aspires to:

- Offer unique and innovative high-quality programs and services;
  - Graduate students who are recognized for the excellence of the knowledge and skills they have acquired;
  - Attract and retain outstanding faculty and staff; and
  - Be a learning-centred college.
- 

## Values

---

The College values:

- Lifelong Learning** for students, faculty and staff through personal growth and professional development;
- Excellence** through striving for continuous improvement;
- Respect** for all individuals, manifested through open communications and a commitment to fairness, justice and honesty;
- Caring** through compassion, courtesy and friendliness and a commitment to the wellness of students, faculty and staff;
- Collaboration** in the achievement of shared goals and objectives;
- Stewardship** through the responsible and effective use of human, physical, environmental and financial resources;
- A sense of community and tradition** within and among all locations of the College.

# Our Size is Our Strength

Champlain College Saint-Lambert offers a unique and interesting combination of programs in a college where our size is our strength. Our friendly, small class sizes encourage effective communication and critical thinking.

Our teachers play a vital role in making learning at Champlain College Saint-Lambert an unforgettable experience. They will take the time to get to know you, provide you with personal attention and feedback, and help you achieve your maximum potential, thereby preparing you for the challenges of university and the job market.

# Champlain at a Glance

Student Population	Approximately 3,000 students.	Multicultural Environment.
Programs Offered	13 x two-year pre-university programs.	5 x three-year career programs.
Language	Champlain College is the only English college on the South Shore of Montreal.	
Student Location	Located on the South Shore of Montreal within a short 10-minute walk from the Longueuil Metro station.	

# It's All About Your Success

Our goal is your success. Champlain College Saint-Lambert provides students with a range of services to help support their academic endeavours and personal growth. Whether a student needs additional help with courses outside the classroom, guidance in choosing a career path or wants more information about getting involved in Champlain College life, experienced and friendly staff are always there to lend a hand. We encourage all students to take advantage of the resources and supportive services provided by the Registrar's Office, Student Services, the Learning Centre and the Library. Students just need to ask and we will assess their needs and guide them in the right direction.

---

## 1<sup>st</sup> Year Student Orientation

---

The First-year Leadership and Integration Program (FLIP) welcomes new students to the Champlain College Saint-Lambert community by providing resources and activities to facilitate a successful transition into college life.

All 1<sup>st</sup> year students are invited and encouraged to attend this one-day College Orientation. Students will have the opportunity to meet the FLIP team & CSA (Champlain Student Association) representatives, be introduced to the services of Student Services, meet faculty and better understand the demands and expectations of academic courses. They will have the chance to be acquainted with Library services and meet an Academic Advisor from the Registrar's office to better understand the ins and outs of the College academic process. The orientation is hosted by 2<sup>nd</sup> and 3<sup>rd</sup> year Champlain students in a social and community setting where questions are encouraged in hopes of helping newly admitted students to better understand and appreciate the resources and social opportunities available to them.

---

## Academic Advising

---

Academic Advisors assist students in a number of areas related to program progression, course selection, academic performance, and university and scholarship applications. During the year, academic advisors invite university representatives to the Campus to provide information to students about the various programs offered and to answer questions concerning admissions to the universities.

---

## Student Access Centre

---

The Student Access Centre (SAC) offers support to students who have difficulties and challenges due to medical diagnoses that are hindering their academic performance or college experience at Champlain College Saint-Lambert and require special accommodations. Once accepted into the College students should contact the Student Access Centre regardless of whether the difficulties they are experiencing are permanent or temporary.

The office supports students with a wide variety of situations, from medical diagnoses to mental health issues and anxiety disorders, and also includes long term support to accompany students with learning disabilities, ADHD, Asperger's and autism.

Students should contact the office even if they are being followed by a medical, mental health or counselling unit outside of the College. The help available can include support for academic success and also for social integration and the transition to college life.

Contact our office at 450-672-7360 ext. 3444 as early as possible after receiving your acceptance to the College for general information or to book an appointment.

---

## Centre de ressources en français

---

*Le Centre de ressources en français (CRF) offre aux élèves un service de coaching individualisé dans le cadre duquel ils devront se fixer, avec la personne accompagnatrice, des objectifs à atteindre pour améliorer une ou des lacunes en français. Les coaches sont des élèves provenant des cours de français de niveau avancé.*

The French Resource Centre offers individualized tutoring for students who are experiencing difficulties in their French courses. The French tutors are Champlain students enrolled in advanced level French courses.

---

## Writing Centre

---

The Writing Centre is run by the English Department in collaboration with the Learning Centre and offers help with essay writing, reading, oral presentation and the mastery of basic English skills. Students can sign up for free drop-in or on-going tutoring. The writing tutors are Champlain students with strong English language skills recommended by their teachers and enrolled in the 'English for Writing Tutors' course.

---

## Learning Centre

---

The Learning Centre provides free academic support including peer tutoring, writing assistance, computer and iPad access, reference materials, study tools and resources, and links to helpful apps and websites to help its patrons with studying. A network of trained peer tutors provides tutoring and academic support in courses including Calculus, Linear Algebra and Methodology. Tutoring services are arranged on a first-come, first-serve basis through the Learning Centre. Drop-In services are also available. Visit the Learning Centre for more information.

---

## Health Services

---

The College nurse is on campus two days per week and is available to discuss the health concerns of our students in a safe and confidential environment.

Services include:

- Discussing any health preoccupation, assessing the situation and referring if necessary.
- Health counselling for tobacco prevention/cessation, nutrition/fitness, eating disorder, stress and birth control.
- Giving information about/discussing matters of sexuality.
- Teaching about ways to prevent sexually transmitted infections (STI's).

---

## Housing

---

Our Student Services Department maintains a Housing Registry that will assist you in locating apartments and rooms in the vicinity of the college.

The Housing Registry can be found on our website.

---

## Student Services

---

Champlain College takes pride in providing a favourable physical and learning environment where academic and personal development can take place hand in hand. Student Services at Champlain has everything to help you continue your learning outside the classroom, get involved on campus, find out more about yourself, address your mental health and well-being or enhance your college experience.

---

## Personal Counselling

---

Licensed psychotherapists, psychologists and a social worker are available to assist students in identifying and resolving any difficulties which could interfere in the attainment of their goals within the areas of personal, career, and life development. This is done through understanding, identifying, exploring, and finding different alternatives to the issue(s) in a confidential manner. They also work with students to overcome difficulties associated with mental health and well-being.

---

## Career Counselling

---

Some students come to Cégep with an idea of what they want to do and which career path they want to pursue; but there are many students who are unsure or who feel confused about which path to take. Counsellors are here to guide students through this process to help students develop a career plan and explore their options through standardized tests, self-reflection, researching careers, online tools, meeting professionals, exploring experiential opportunities, such as volunteering or workshops, and discussion. Career counselling is done in groups but can lead to individual sessions where necessary.

---

## Study Skills

---

A students' academic performance may be compromised because of a personal issue and/or other factors such as time management difficulties, exam/class anxiety and/or procrastination. Students may also struggle with study skills such as note-taking, organization, preparing for exams and how to read a textbook. The Student Services staff is here to help you through these issues.

# Our Indigenous Initiatives

---

Champlain College Saint-Lambert has undertaken numerous activities to promote learning and foster awareness of the reconciliation between Indigenous and non-Indigenous people through education in support of the Truth and Reconciliation Commission of Canada. With the support of faculty, staff and a dynamic Community of Practice committee, our Champlain Indigenous Student Ambassadors are active in the community offering support to 1st year students, planning Indigenous Orientation Retreats and increasing intercollegiate partnerships to work with Indigenous students from other Cégeps. Pedagogical Day activities such as blanket exercises and visits to Kahnawake and the First Nations Adult Education School Council continue to promote Indigenous consciousness. The George Wallace Library hosts an expanding Truth & Reconciliation Collection which can be consulted through the Champlain TRC Community of Practice link on the Omnivox Portal.

New ideas and course components addressing Indigenous issues are being incorporated into our evolving curriculum in the hope that students will be able to:

- recognize and respect diversity,
- be open to individual differences,
- value Reconciliation and the importance of Truth in today's historical context, and
- become an active contributor to Reconciliation efforts by engaging in Indigenous Education and Culture.

# George Wallace Library

---

Named in honour of George W. Wallace, Champlain College Saint-Lambert teacher and Campus Director, the George Wallace Library and Media Centre is located on the second and third floors of B-Block. The Library provides ample collaborative group workspace as well as plenty of space for quiet study. With close to 80 computers and wireless connectivity throughout, the Library is the perfect place to come for all your work and information needs.

Our Library offers a collection of over 80,000 books, electronic reports, periodicals and government publications. Librarians and technicians provide research assistance in person or via email / MIO. Library staff train students in the basics of research as an integral part of the first level Humanities course. Research help sessions tailored to the needs of specific courses are also available. The library webpage offers a wide range of electronic products, tools and guides accessible both on and off campus including access to the Library Catalogue, online periodical databases, eBook collections as well as the MLA, APA and Chicago Style Guides required for writing bibliographies.

## Bookstore

---

Students can purchase required textbooks on campus. Online ordering and Book Rental Program is also available. Visit our bookstore (F-117) at the College or online at

[www.bkstr.com/champlainregionalstore](http://www.bkstr.com/champlainregionalstore)

# General Education

## What is the purpose of the General Education Component?

Regardless of which educational path you choose to follow, you will take both program-specific courses and general education courses. General Education is an essential component directly linked to the three main goals of college education:

- To educate students to live responsibly in society.
- To help students integrate cultural knowledge into their studies.
- To help students master language as a tool for thought, communication and openness to the world.
- Your English, French, Humanities, Physical Education and Complementary courses are designed to help you develop competencies associated with these goals.

### Breakdown of the General Education Component:

English	→	4 Courses
French	→	2 Courses
Humanities	→	3 Courses
Physical Education	→	3 Courses
Complementary	→	2 Courses

### Contact Information

900 Riverside Drive, Saint-Lambert, Québec, J4P 3P2  
 Telephone: 450-672-7360 / Toll-Free: 1-877-929-9197  
[www.champlainonline.com](http://www.champlainonline.com)

## Choosing an Educational Path:

---

## English Courses

---

At the start of their program, students are all placed in the

→ **Introduction to College Literature** course, which introduces them to thinking, talking and writing about literature at the college level. Upon successful completion of this course students go on to studying:

→ **Literary Genres**

The objective of Literary Genres courses is to enable students to apply a critical approach to the study of literary genres. Students will learn to recognize literary genres and their conventions. Successful students will understand a work's relationship to literary and historical context.

→ **Literary Themes**

The objective of the Literary Themes courses is to enable students to apply a critical approach to the study of literary themes. Students will learn to recognize a work's literary themes, cultural context and value system. Students will analyze a text from a thematic perspective.

→ **Program Specific - Block B**

The objective of the Block B courses is to enable students to communicate in forms appropriate to specific programs. Students will learn to recognize how facts and arguments are organized in different disciplines. Students will learn to develop their own ideas into arguments, to organize them and to edit their work.

---

## Physical Education Couses

---

The three Physical Education courses of the General Education component aim at getting students to develop an active and healthy lifestyle.

The **101 course** involves identifying the role that certain lifestyle behaviours, such as regular physical activity, good nutrition and stress management, play in the pursuit of optimal health and well-being. Students will examine the health and wellness effects derived from participation in regular physical activity and will explore the effects of their current lifestyle habits.

The **102 course** is skills-oriented. Each student will be expected to analyze the factors that contribute to the acquisition of skills to be a successful participant in their chosen activity. Using a problem-solving approach, the student will conduct a personal analysis of their knowledge and abilities, establish personal goals, and plan strategies leading to the improvement of those skills.

The **103 course** addresses the competency of designing and managing a personal activity program that incorporates healthy lifestyle choices. This course contributes to the development of responsible behaviours leading to the promotion and improvement of health. The learning situation will require the application of fundamental knowledge and experiences acquired in the 101 and 102 Physical Education courses. The student will explore a variety of health-related activities and be responsible for choosing, performing and scheduling activities appropriate to meet personal needs, interests and abilities.

To respond to students' diverse interests, abilities and motivations, Champlain Saint-Lambert offers a wide range of courses – downhill skiing, snowboarding, water front activities, basketball, badminton, total body conditioning, soccer, volleyball, ice activities, hiking, tennis, yoga, weight training and canoe camping etc.

---

## French Courses

---

In order to function successfully in the Quebec society, the General Education prescribes that all students must complete two French as a Second Language courses. The first, is a general course common to all programs. Students are placed in one of four levels according to their highschool grades:

602-100- MQ Français de base I\*

602-101- MQ Langue française et communication

602-102- MQ Langue française et culture

602-103- MQ Français et littérature

The second French course is tied to the student's field of study.

Students who completed high-school outside Quebec will be evaluated and placed on an individual basis.

*\* Students whose knowledge of the language is insufficient will be required to take a non-credit qualifying course, 602-009, before enrolling in 602-100.*

---

## Humanities Courses

---

The Humanities courses are developed around three major themes – Knowledge, Worldviews and Ethics. Students must take one course from each of these categories.

→ **Knowledge**

Courses in this group examine ways of knowing, ways of assessing knowledge and truth and the difference between knowledge and belief. Students will begin to understand how knowledge can be organized, analyzed and related to historical context. Students will consider how knowledge is used to restrict or contribute to the progress of a society

→ **Worldviews**

A worldview touches every aspect of a person's life. A worldview may be common to an entire civilization or historical period, or specific to a particular social group or philosophical outlook. Courses in this group examine how ideas, values and experiences inherent in a worldview influence an individual's understanding of the world. Students will analyze and compare the central ideas of two or more worldviews with the goal of understanding how worldviews both reflect and shape societies.

→ **Humanities Block-B - Program Specific**

Courses in this group require students to examine the connection between ethical choices and social responsibility. A number of theories and principles of ethical decision-making are introduced. Students are required to consider opposing sides of issues related to their program of study by applying ethical theories.

---

## Complementary Courses:

---

Complementary courses give students the opportunity to explore academic fields and topics outside of their program of study. Students can choose two among a wide variety of courses, such as:

- A World of Cities
- Astronomy
- Based on a True Story? Popular Culture & the Past
- Behind the Camera: Introduction to Photography
- Behind the Camera: TV Studio Workshop
- Biological Perspectives on Sex
- Biology: Sharing the Environment
- Chemistry and the Environment
- Computer Applications for Commerce
- Creative Images with Photoshop
- Creative Writing
- Cultivating Creativity Online and Beyond
- Digital Disruptors
- Exploring Environmental Change
- How to Get the Most Bang for Your Travel Dollar
- Indigenous People and Globalization
- Introduction to Film Studies
- Introduction to Forensic Science
- Italian I
- Meaning and Life's Problems: Exploring Philosophy
- Model United Nations
- Money Skills and Consumer Economics
- Music: Back and Forth from Jazz to Rap to Techno
- NewsActivist
- Nutrition and Health Management
- Political Science: Politics and Society
- Psychology: Introduction to Social Sciences
- Psych Yourself Up: Psychological Strategies for Self-Understanding
- Public Speaking for Beginners
- Sociology: An Introduction to Social Life
- Spanish I
- Storytelling with Still Photography
- Studio Art Workshop / Introduction to Artistic Practices
- The Language of Food Culture: Italy
- Understanding the Things You Put in Your Mouth: Food, Drinks & Drugs
- Writing for Journalism

For detailed course descriptions please see the course catalogue:  
[champlainonline.com/champlainweb/students/course-calendar/](http://champlainonline.com/champlainweb/students/course-calendar/)

# Science Options Health Science Pure & Applied Science

Science  
Program (200.B0)

## About the program:

The two-year pre-university Science Program prepares you for university admission to various Science Programs. At Champlain, we have found that the best way for students to succeed is by making them part of the courses they take and giving them the opportunity to study scientific problems the way professional scientists do. In Biology, this means that you spend less time listening to lectures and more time participating in group activities and studying relevant cases. In Chemistry, you have the opportunity to put into practice what you learn thanks to a major lab component in each course. In Physics, option courses that are relevant to trends in science and engineering are added to the curriculum.

---

### Facilities

---

The Chemistry Department has four fully equipped labs. The labs are furnished with laptop computers and the latest data acquisition tools. Students can see the relationship between the equipment and the results in real time. Other equipment includes an Atomic Absorption Spectrophotometer, Ultra Violet/Visible Spectrophotometer, a Gas Chromatograph, two Infrared Spectrophotometers and three Rotary Evaporators used in organic chemistry to gently remove solvents from samples through evaporation. Students will be exposed to a "hands-on" approach in the lab.

The Physics Department has four fully equipped labs, three of which are used by students to perform standard experiments and one which is used for special projects. The labs are equipped with the latest in computerized tools for data collection and analysis that will enhance your experimental skills. Each lab workstation is equipped with a computer as well as sophisticated sensors and data-acquisition devices that allow you to immediately see the outcome of your work.

Students in the Biology Department have hands-on experience while they experience the scientific approach to observing life and examining some of its key properties. They are taught how to use and care for our new compound and stereomicroscopes while observing a diversity of cells, and examine DNA using gel electrophoresis units and thermocyclers for gene amplification techniques. Some lab activities provide the learners with the opportunity to handle live specimens such as fruit flies for genetic studies, pond microbes in ecological assessments, mammalian dissections to explore and compare other forms of life to the human body, and delicate manipulations using aseptic technique of plant tissue while exploring tissue culture methods.

---

### Science Options – Health Science or Pure & Applied Science:

---

Champlain College offers two distinct streams of scientific study: Health Science and Pure & Applied Science. Each stream gives students a solid foundation in biology, chemistry, mathematics, and physics. The Health Science option includes additional instruction in biology and chemistry to better prepare graduates for university study in programs such as medicine and health science research. Those enrolled in Pure & Applied have more flexibility in their studies and are able to choose from amongst a selection of additional science credits to better suit their academic ambitions.

---

### Off-Campus Activities

---

Studying and understanding the various ecological systems in our environment is an important aspect of our Biology labs. Environmental studies at Champlain College Saint-Lambert provide students with the benefits of experiencing light field work during their studies which focuses on the analysis of water from the St. Lawrence River. It allows our students to become aware of, and understand, problems associated with pollution and sustainability. In addition, students spend time outside of the lab during structured activities to the Botanical Gardens and the Biodôme, where they will be responsible for data collection in an effort to become familiar with and appreciate the similarities and differences observed in the diverse living world.

---

### Application Deadline:

**March 1<sup>st</sup> for the Fall Semester**  
**November 1<sup>st</sup> for the Winter Semester**

---

#### Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Règlement sur le régime des études collégiale, they may be refused admission due to lack of space.

---

#### Prerequisites:

Mathematics TS 5 or SN 5, Secondary 5 Chemistry, Secondary 5 Physics

---

#### Contact Information:

900 Riverside Drive, Saint-Lambert, Québec, J4P 3P2  
Telephone: 450-672-7360 / Toll-Free: 1-877-929-9197

## Semester Breakdown:

### Health Science

#### Semester 1

1	Calculus I
2	General Chemistry I
3	Mechanics
4	English
5	Humanities
6	French
7	Physical Education

#### Semester 2

1	Calculus II
2	General Chemistry II
3	Waves, Optics & Modern Physics
4	English
5	Humanities
6	Complementary
7	Physical Education

#### Semester 3

1	General Biology I
2	Organic Chemistry I
3	Electricity & Magnetism
4	English
5	Humanities
6	Complementary

#### Semester 4

1	General Biology II
2	Linear Algebra
3	Option Course
4	English
5	French
6	Physical Education

### Health Science can take you:

Dietetics, Pharmacy, Optometry, Biology, Forensics, Nursing, Nutrition, Biochemistry, Education, Dentistry, Microbiology & Immunology, Biotechnology, Chemistry, Occupational Therapy, Veterinary Medicine, Psychology (B.Sc.), Physiotherapy, Experimental Medicine

### Pure & Applied Science

#### Semester 1

1	Calculus I
2	General Chemistry I
3	Mechanics
4	English
5	Humanities
6	French
7	Complementary

#### Semester 2

1	Calculus II
2	General Chemistry II
3	Waves, Optics & Modern Physics
4	English
5	Humanities
6	Physical Education

#### Semester 3

1	General Biology I
2	Linear Algebra
3	Electricity & Magnetism
4	English
5	Humanities
6	Complementary
7	Physical Education

#### Semester 4

1	Option Course
2	Option Course
3	Option Course
4	English
5	French
6	Physical Education

### Pure & Applied can take you:

Agronomy, Chemical Engineering, Architecture, Mathematics (B.Sc.), Agriculture, Chemistry, Forestry, Physics (B.Sc.), Engineering, Computer Science, Geology

# Computer Science and Mathematics

Science Program (200.CO)

Shaping a New Generation

## About the program:

This program will allow graduates to pursue studies in the exciting and ever growing field of Computer Science. As a pre-university program, students are also able to enter university programs in Mathematics, Actuarial Sciences, Computer Gaming, Information Systems as well as traditional fields of study in both engineering and sciences.

The innovative computer science courses in this program will give you the chance to take your skills, interests and passion for computers and technology and turn them into an exciting base for academic studies. Students will use a program approach to present scientific solutions to problems using math, chemistry and physics. While studying Computer Science and Mathematics you will combine science and computer technology courses.

### In this program, you will learn to:

- Interpret and evaluate solutions and theories
- Take a systematic approach to problem solving
- Use information and communications technologies to solve problems in a scientific context
- Conduct research and carry out projects pertaining to situations, problems or issues by drawing on several fields of knowledge
- Learn to work individually and as part of a team
- Develop personal abilities in analysis and reasoning
- Conduct a comprehensive assessment in the area of computer science and mathematics

## Semester Breakdown:

### Semester 1

1	Calculus I
2	Mechanics
3	Introduction to Programming
4	English
5	Humanities
6	Physical Education

### Semester 2

1	Calculus II
2	Waves, Optics & Modern Physics
3	Data Structures and Object Oriented Programming
4	English
5	Humanities
6	French

### Semester 3

1	Program Development in a Graphical Environmental
2	General Chemistry
3	Electricity & Magnetism
4	English
5	Humanities
6	Complementary
7	Physical Education

### Semester 4

1	Discrete Mathematics
2	Linear Algebra
3	Integrative Project in Computer Science and Mathematics
4	English
5	French
6	Complementary
7	Physical Education

## Application Deadline:

March 1<sup>st</sup> for the Fall Semester

Minimum Admission Requirements:

# General Social Science Option

Social Science Program (300.A0)

Shaping a New Generation

## About the program:

The general option of the Social Science program allows students the greatest amount of flexibility when selecting social science courses. It allows you to explore the social sciences before making a commitment to a particular subject or area of study. It provides you with a strong background in the seven social science disciplines that will allow you to pursue studies in many programs at university.

### Structured and organized:

Teaching in our Social Science program is structured to ensure that courses complement each other. This coherence assures that what you are learning is both practical and purposeful while preparing you for university studies. Social Science is the study of human behaviour and social phenomena through the use of a wide variety of both qualitative and quantitative methods. Social Science involves many bodies of knowledge including anthropology, economics, geography, history, political science, psychology and sociology. Through a variety of courses, students will have the opportunity to study human interactions with other individuals, groups, institutions, cultures and societies using the tools and methods of a social scientist.

### The learning is dynamic:

In addition to traditional class lectures, teachers use a wide variety of teaching methods to keep classes interesting and dynamic. Multimedia, computer simulations, sources from current events and the news, and debating are all part of teaching and learning at Champlain College.

### Where this program can take you:

Anthropology, Communications, Education (Including Physical Education), English, Foreign Affairs, Geography, History, Industrial Resources, Journalism, Law, Literature, Philosophy, Political Science, Public Affairs, Religion, Sociology, Specialized Writing (Economics, History, Politics), Social Work

### In this program, you will learn to:

- Communicate ideas clearly in written and oral formats.
- Work effectively as a member of a group.
- Use strategies that allow you to reach your short and long-term goal.
- Develop comprehensive research skills.
- Mathematics is available to students who want to meet certain university program entrance requirements. Some restrictions may apply.

### Our teachers are dedicated:

The teachers work together with students to discuss, examine and debate current social issues and to ensure that students are well prepared for university.

## Semester Breakdown:

### Semester 1

1	Western Civilization
2	Introduction to Psychology
3	Level I Concentration Course
4	Level I Concentration Course
5	English
6	Humanities
7	Physical Education

### Semester 2

1	Quantitative Methods
2	Macroeconomics
3	Level I Concentration Course
4	Level II Concentration Course
5	English
6	Humanities
7	French
8	Complementary

### Semester 3

1	Introduction to Methodology
2	Level II Concentration Course
3	Level II Concentration Course
4	English
5	Humanities
6	French
7	Physical Education

### Semester 4

1	Integration Seminar in the Social Sciences
2	Level II Concentration Course
3	Level II Concentration Course
4	Level II Concentration Course
5	English
6	Complementary
7	Physical Education

### Choose your Level I or II Concentration courses from:

- Anthropology
- Economics
- Sociology
- Biology
- Geography
- Political Science
- Business
- History
- Psychology

### Application Deadline:

March 1<sup>st</sup> for the Fall Semester  
November 1<sup>st</sup> for the Winter Semester

#### Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Règlement sur le régime des études collégiale, they may be refused admission due to lack of space.

#### Contact Information:

900 Riverside Drive, Saint-Lambert, Québec, J4P 3P2

www.champlainonline.com

# Commerce Option

Social Science Program (300.A0)

Shaping a New Generation

## About the program:

The Commerce option of the Social Science program is a two-year pre-university program for students interested in pursuing careers in commerce, business administration, international business, law, computer science and more. The Commerce option provides students with the required mathematics, business, economics and computer literacy courses required for university admission. The multi-disciplinary approach offers students the opportunity to study history, psychology, and at least one other discipline providing the strong social science background sought by universities. Students will benefit from working in a team environment fostering academic excellence. An international component will convey an understanding of the impact of culture on commerce and trade in a global market.

### Skills Acquired in the program:

- Communicate ideas clearly in both written and oral formats.
- Develop comprehensive research skills.
- Work both independently and as a vital member of a group.
- Develop managerial skills.
- Develop strategies to reach short and long-term goals.
- Build confidence and focus on success.

### Unique features about the program:

- The largest number of students in a specialized option in the Social Science Program at Saint-Lambert.
- The first stepping-stone to obtaining a Bachelor of Commerce or Bachelor of Economics degree at university.
- Leads to future studies and careers in such areas as Commerce, Economics, Journalism, Engineering, International Business, Law, and Computer Science.

### Where this program can take you:

Market Research, Company Secretary, Capital Markets Manager, Economist, MBA, Stock Trader, Chartered Accountant, Investment Banker, Cost Accountant, Financial Analyst, Insurance & Risk Management, Tax Auditor

## Semester Breakdown:

### Semester 1

1	Calculus I
2	Macroeconomics
3	Fundamentals of Business
4	Level I Concentration Course
5	English
6	Humanities
7	Physical Education

### Semester 2

1	Calculus II
2	Western Civilization
3	Introduction to Accounting
4	Quantitative Methods
5	English
6	Humanities
7	French

### Semester 3

1	Microeconomics
2	Introduction to Methodology
3	Introduction to Psychology
4	Complementary Course: Computer Applications For Commerce
5	English
6	Humanities
7	Physical Education

### Semester 4

1	Integration Seminar in the Social Sciences
2	Linear Algebra

# Criminology Option

Social Science Program (300.A0)

Shaping a New Generation

## About the program:

The Criminology option of the Social Science program is intended to give students a background that permits them to apply to many fields of study at university. This multi-disciplinary option is ideal for students wanting to explore studies in anthropology, criminology, psychology or sociology. Criminology option students may pursue studies in law; however, this is not intended to be a pre-law program.

Career opportunities for Criminology students include: corrections, probation, law enforcement, private policing, law reform or rehabilitation programs – but only after university studies. Students may also pursue possibilities in journalism, administrative and research positions within the criminal justice system, or work in policy setting and application in social and judicial agencies.

## Semester Breakdown:

### Semester 1

1	Complementary Course: Introduction to Forensic Science
2	Introduction to Psychology
3	Introduction to Sociology
4	Western Civilization
5	English
6	Humanities
7	Physical Education

### Semester 2

# Education Option

Social Science Program (300.A0)

Shaping a New Generation

## About the program:

The Education option of the Social Science Program is intended for students considering a career in teaching or other fields related to education. This option offers students a firm grounding in several social science disciplines relevant to education specifically, anthropology, psychology and sociology.

The Education option will offer you many different ways of looking at education. It will give you a behind the scenes look at schools, teaching and related concerns. You will examine education broadly to see how it fits with the rest of society and its connection with the labour force. You will look at schools from the perspective of the classroom and student-teacher interaction. You will gain an understanding of students' psychological development. You will study various social problems such as racism and sexism, to determine their impact on students, schools and society. Feasible solutions will be discussed.

This social science foundation will give you a formidable background from which to pursue your teaching training courses at university. You will get a preview of what learning to become a teacher may entail, which will also help you solidify or modify your goals.

While the Education option focuses on schooling, it also provides an excellent preparation for any Arts program at university. The social science perspectives and analytical and writing skills you acquire will be profitable regardless of the path you choose.

## Semester Breakdown:

### Semester 1

1	Western Civilization
2	Introduction to Psychology
3	Introduction to Anthropology
4	Introduction to Sociology
5	English
6	French
7	Physical Education

### Semester 2

1	Child & Adolescent Psychology

# Psychology Option

Social Science Program (300.A0)

Shaping a New Generation

## About the program:

The field of psychology investigates the mysteries of the human mind and resulting behaviour. Students intrigued by what influences behaviour, how it is modified, and the therapies employed to do so, will have their curiosity rewarded in the Psychology option. Students will be introduced to the fundamentals of psychology, while also giving them the freedom to explore several specialized fields including, but not limited to: sports psychology, developmental psychology, human sexuality and social psychology. At the same time students will acquire core social science and research methodology skills preparing them for eventual university study.

This option is for the students who are interested in furthering their studies in Psychology at the university level. As part of the Social Science Program, the Psychology option satisfies the requirements for most Bachelor of Arts university programs. Students considering careers in fields such as counselling, communication, social work, human relations and public relations could benefit from expanding their knowledge of psychology.

Students who complete this option may also apply to university programs such as Anthropology, Sociology, History, Education and even Law.

## Semester Breakdown:

### Semester 1

1	Introduction to Psychology
2	Level I Concentration Course
3	Level I Concentration Course
4	English

# World Studies Option

Social Science Program (300.A0)

## About the program:

The World Studies option of the Social Science program is designed to prepare you for university studies with an international focus. It will lead to an understanding of the world's diverse communities and of the cultural, economic and political implications of achieving closer international relations. The option focuses on building a solid foundation in the social sciences, particularly in world geography, 21<sup>st</sup> century history, international economics and international politics.

### In this program, you will learn:

- Develop knowledge and an interest in international affairs and an in-depth understanding of the impact that international forces and events have on humanity and the environment.
- Develop the ability to communicate in and about an international context.
- Develop the ability to observe, analyze and evaluate international life from an interdisciplinary perspective.
- Develop the ability to understand international events and processes in an ethical context.
- Develop the ability to work in a team and to appreciate other cultures and value systems.
- The World Studies option will prove useful to students planning a career in public service, law, journalism, or in those parts of the private sector which have international interests.

### Choose your Level II Concentration courses from:

- Anthropology      → Geography      → Psychology
- Economics          → History

### Application Deadline: March 1<sup>st</sup> for the Fall Semester

**Minimum Admission Requirements:** Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Règlement sur le régime des études collégiale, they may be refused admission due to lack of space.

**Prerequisites:** Mathematics TS 5 or SN 5 (for Math Option only)

# Language & Culture Option

Arts, Literature & Communication Program (500.A1)

Shaping a New Generation

## About the program:

The Language and Culture profile of the Arts, Literature & Communication program is a two-year pre-university program which immerses students in the study of language, thought, culture, and national traditions while encouraging trans-national approaches and cultural plurality.

Our goal is to enable students to develop communicative skills in Spanish and Italian and provide critical tools to understand the complexities of cultural traditions.

Gone are the days when students would study languages with the sole intention of pursuing a career in translation or interpretation. In today's global job market you will find many professionals, business executives, diplomats, economic and market analysts and journalists with a degree in Languages and/or a degree in the Arts. Cultural adaptability, critical thinking and reasoning, problem-solving and adeptness in multiple languages are skills that are sought after by many employers.

Studying Language and Culture at Champlain College Saint-Lambert is the first step to widening your inter-cultural awareness and providing you with valuable communicative skills that will help to prepare you for a global job market.

### Where this program can take you:

**Faculty of Law:**  
Corporate Law, Immigration Law.

**Faculty of Arts:**  
Communication Studies, Art History and Communication Studies, Linguistics, Journalism, History, Languages, Industrial Relations, Sociology, Community, Public Affairs and Policy Studies.

**Faculty of Education:**  
Teaching English as a Second Law Language, Undergraduate Leading to a Teaching Certification.

## Semester Breakdown:

### Semester 1

1	Cultural Identity in the Visual Age I
2	Spanish I
3	Italian I
4	Urban Spaces as Cultural Spheres
5	English
6	Humanities
7	French

### Semester 2

1	Cultural Identity in the Visual Age II
2	Spanish II
3	Italian II
4	The Power of Language
5	English
6	French
7	Complementary
8	Physical Education

### Semester 3

1	La francophonie à travers le monde
2	Spanish III
3	Italian III
4	English
5	Humanities
6	Complementary
7	Physical Education

### Semester 4

1	Montreal: A Cultural Mosaic
2	Spanish Civilization
3	Italian Civilization
4	Research Assessment
5	English
6	Humanities
7	Physical Education

The benefits of multilingualism are endless.

# Digital Arts & New Media Option

Arts, Literature & Communication Program (500.A1)

Shaping a New Generation

## About the program:

*Digital Arts & New Media* is one of two interconnecting Media profiles in the Arts, Literature and Communication program. This is an exciting pre-university program which prepares students for a wide variety of university studies and careers.

The program's dynamic mix of theory and practice gives students a chance to sharpen their technical abilities, develop critical understanding of visual culture and develop personalized expressions of their creative voice.

### In this program, you will learn to:

Students will learn digital 2D design and 3D modelling along with the fundamentals of traditional artistic techniques. The courses are designed to develop communication skills and critical thinking through a variety of creative approaches that include studio-based arts: drawing, assemblage, sculpture and photography. CGI projects encompass aspects of 3D digital modelling and animation.

The focus of the courses taught in open studios and the digital lab is experiential learning. These courses are complemented by theoretical courses that foster critical thinking through subjects that vary from art history to the analysis of visual culture.

### Where this program can take you:

Graduates of Digital Arts and New Media are prepared for a wide variety of related art-based university programs such as computational arts, game design, animation, design, industrial design, art education, art history, theatre design, as well as many other undergraduate programs including sociology, history and education.

Join us and prepare to engage in exciting studies that will open doors to a world of possibilities.

## Semester Breakdown:

### Semester 1

1	Introduction to Visual Creation: Drawing and Observation
2	Introduction to Digital Creation: 2D Imaging
3	The Power of the Image
4	Sight, Sound, Motion
5	English
6	Humanities
7	French

### Semester 2

1	Expression in Visual Genres
2	Web & FX: From Theory to Practice
3	2D Design Studio
4	3D Design Studio
5	English
6	French
7	Complementary
8	Physical Education

### Semester 3

1	Multi-Media Animation
2	Art History
3	3D Digital Modelling & Animation
4	Making Visual Narratives
5	English
6	Humanities
7	Physical Education

### Semester 4

1	Portfolio: Synthesis of Theory & Practice
2	Looking Critically and Creatively at Media
3	Graduating Integrative Project
4	English
5	Humanities
6	Complementary
7	Physical Education

## Application Deadline:

March 1<sup>st</sup> for the Fall Semester

# Film & New Media Option

Arts, Literature & Communication Program (500.A1)

Shaping a New Generation

## About the program:

*Film and New Media* is one of two interconnecting Media profiles in the Arts, Literature and Communication program. This pre-university program is an exciting mix of theory and practice that gives you a chance to experiment and create using a variety of media.

### In this program, you will learn to:

In the Film and New Media profile, you will progressively master the fundamentals of writing, shooting, recording sound, and editing, whether in fiction film, television, animation, radio or any number of multimedia platforms. Through written and visual communication, you will sharpen your creative abilities, critical thinking, and academic skills.

The courses take place in our exciting television studio, workshop spaces and digital lab. In the journalism and documentary courses you will apply your creative and technical skills to the telling of real-life stories that are important to you. In the filmmaking classes, you will invent your own stories and learn how to bring these ideas to screen. You will also have the chance to experiment in special effects and animation as well as develop your sense of critical thinking through subjects that vary from film history to the analysis of contemporary visual culture.

### Where this program can take you:

In our media saturated world, visual literacy is more important than ever. Our graduates are able to transfer their learning into almost any field requiring an understanding of the creative process, self-motivation, and project management abilities.

Our graduates have found careers in advertising, marketing, journalism, film production, television, radio, animation, app design, computer gaming, special effects design, education, music production, photography, acting, public relations and many other fields.

*Join us and prepare to engage in exciting studies that will open doors to a world of possibilities.*

# Law and Civilization

## Law, Civilization and Mathematics

Liberal Arts  
Program (700.B0)

### About the program:

Our students receive a well-rounded education based on interdisciplinary studies exploring ideas and knowledge-building skills that together offer an excellent preparation for the study of law at university. Subject areas include history, philosophy, religion, history of art, social sciences, and mathematics.

Our students will benefit from an environment where faculty and students work together in a community dedicated to learning.

Our students will develop as individuals and gain self-confidence through team-building, problem solving and cooperative projects.

Our students will develop critical thinking and study skills while expanding oral and written communications skills.

Our students will have an opportunity to participate in extra-curricular activities such as concerts, plays, movies, field trips, etc. These activities will help broaden and further enrich our students' understanding of Liberal Arts from outside the classroom.

We are the only CEGEP to offer two unique options under the Liberal Arts Program

#### Law and Civilization

Law and Civilization is an ideal choice for students wishing to pursue university studies in Law including Common, Civil and International Law.

The Law and Civilization option is also ideal for students looking for a well-rounded education with excellent preparation for future studies in:

- Communications
- Creative Writing
- Education
- Journalism
- Law
- Liberal Arts
- Literature
- Philosophy

And many other university programs under the Faculty of Arts & Science.

#### Law, Civilization and Mathematics

Graduates from the Law, Civilization and Mathematics option will also have the required mathematics pre-requisite courses (Calculus I, Calculus II and Linear Algebra) needed to apply to the following university programs:

- Accounting
- Actuarial Mathematics
- Finance
- Human Resource Management
- International Business
- Management
- Marketing

#### Application Deadline:

March 1<sup>st</sup> for the Fall Semester

Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Règlement sur le régime des études collégiale, they may be refused admission due to lack of space.

Prerequisites for Law, Civilization and Mathematics:

Mathematics TS 5 or SN 5

Contact Information:

# Nursing

Nursing Program  
(180.A0)

## About the program:

Nursing is a three-year program which blends classroom studies and nursing labs with clinical fieldwork in various hospitals and healthcare facilities.

Our mission is to develop graduates who are recognized as outstanding nurses providing compassionate and quality care, focusing on the unique needs of patients and their families.

Students experience a variety of Francophone and Anglophone clinical settings such as emergency, medical and surgical care, pediatrics, maternity, ambulatory care, mental health and gerontology. A DEC in Nursing will provide an opportunity to write the provincial licensing exam in order to begin employment as a registered nurse. Our graduates also have the opportunity to pursue continued studies in the DEC-BAC program with a university in Quebec, such as McGill University, Université de Sherbrooke and Université de Montreal.

### What makes us unique:

- Small innovative program with all the resources of a large nursing program.
- Bilingual program with Francophone and Anglophone clinical settings that meet the needs of today's society.
- Final semester dedicated to reviewing all theoretical and laboratory material to consolidate knowledge and prepare for licensing exam.
- Program based on the McGill Model of Nursing with a Strengths-Based Nursing philosophy.
- New laboratory facilities and Simulation Centre.

### Certification requirements:

In order to become a practicing nurse, graduates must pass the l'Ordre des infirmiers et infirmières du Québec (OIIQ) licensing examination. Students must also demonstrate their ability to function in French in order to meet the needs of their clientele, thus they may be required to pass an examination set by the Office québécois de la langue française (OQLF).

## Semester Breakdown:

Shaping a New Generation

### Semester 1

1	Anatomy and Physiology I
2	Communication & Professional Challenges in Nursing
3	Introduction to Nursing
4	Health Assessment & Physical Examination
5	Introduction to Nursing/Clinical
6	English
7	French

### Semester 3

1	Anatomy and Physiology III
2	Sociology of Families
3	Medical-Surgical Nursing II
4	Medical-Surgical Nursing II/Clinical
5	Perinatal Care and Women's Health
6	Perinatal Care and Women's Health/Clinical
7	English
8	Complementary

### Semester 5

1	Medical-Surgical Nursing IV & Ambulatory Care
2	Medical-Surgical Nursing IV & Ambulatory Care/Clinical
3	Mental Health Care
4	Mental Health Care/Clinical
5	English
6	Humanities
7	Complementary
8	Physical Education

### Semester 2

1	Anatomy and Physiology II
2	Introduction to Medical-Surgical Nursing & Chronic Illnesses
3	Wellness in the Aging Adult
4	Introduction to Medical-Surgical Nursing & Chronic Illnesses/Clinical
5	Humanities
6	French
7	Physical Education

### Semester 4

# Sport Marketing & Management Option

Business Management Program (410.D0)

## About the program:

The Sport Marketing & Management option of the Business Management program is a three-year program designed to prepare students for careers in a wide range of sport-related enterprises. It is designed for the student who enjoys having responsibility, taking initiative, dealing with the public and being part of a team.

This three-year technical program has a practical approach to learning through the use of simulations, case studies, and assorted software applications. Students will have the opportunity to complete fieldwork or to develop a project through an independent study in sport. Sport Marketing & Management will give the knowledge and skills needed to succeed in business and can lead to a career that is both challenging and rewarding.

### Careers in business:

The aim of the program is to prepare students for management or marketing positions in:

- Sports marketing companies
- Sports and communication firms
- Amateur athletic organizations
- Corporate fitness and wellness programs
- Professional sports teams/leagues

# Entrepreneurship Option

Business Management Program (410.D0)

## About the program:

The Entrepreneurship option of the Business Management program is a three-year program designed to provide students with all of the necessary skills and knowledge needed to build and operate a successful business. Our curriculum covers a broad spectrum of competencies in the areas of marketing, finance, accounting, sales, products & services, online ventures (e-Commerce) and legal issues with a focus on best practices required for Quebec and international businesses.

Our program includes a unique and innovative approach to the business world. The “Incubator” component offers students the opportunity to put into practice the theoretical portion of the program by designing and launching their own business. The Incubator courses include the essential business principles related to funding, investment, strategic planning, facility planning, coaching, cost assessment as well as needs in human resources.

---

### In this program, you will learn to:

---

- Start-up a business from A to Z.
- Acquire a franchise in pre-established companies.
- Foster the continued development of family owned businesses.
- Manage aspects of a commercial project.

# Tourism Management

Tourism Program (414.A0)

## About the program:

Champlain College Saint-Lambert is the only public English CEGEP to offer the three-year tuition free Tourism program in the Greater Montreal area and will prepare you for exciting opportunities in the Tourism industry.

Tourism Management students will discover the many facets of the field, study the world and different cultures, learn how to use the most recent technology, and network with Montreal's tourism business leaders. You will obtain an in-depth knowledge of hotel operations, customer service, tourism law, master financial tools for tourism operations, learn about strategic promotion within an internet culture, and how to evaluate tourism potential and interpret trends.

The opportunity to travel and experience the industry is a key component of the learning experience in the program. Students will plan and partake in local, regional, national and international trips allowing them to link theory and practice. Local field trips could lead you to visiting major players in the industry such as Air Canada and Air Transat, Queen Elizabeth Hotel, VIA Rail, Tourisme Montreal. You could participate in conferences and regional competitions such as the Jeux du Tourisme, while the yearly trip could take you to a faraway destination like Costa Rica, Iceland, France, Barbados, Czech Republic, England, Switzerland, Hungary, Panama or China.

Tourism is an important sector of the Quebec, the Canadian and the world economy, contributing to over 735,300 jobs in Canada only.<sup>1</sup> Approximately 90% of students find employment through their two-month work-study session required at the end of the tourism curriculum.

## Champlain Tourism Graduates Go Places!

### Where this program can take you:

Graduates of the program quickly climb the ladder into management careers working for tourism associations, federal and provincial ministries of tourism, airlines, cruise lines, events and meeting planning companies, convention centres, hotels and resorts, tour operators, wholesalers and corporate and leisure travel companies. You could end up planning, leading or marketing an event, a world travel package, or working in the hospitality industry.

### Skills acquired in this program:

As a graduate of this program, in addition to being qualified to work in the tourism industry, you will have among your assets:

- Communication skills (including public speaking).
- Familiarity with research methodology.
- Critical thinking skills.
- The ability to work as a member of a team.
- Practical business experience (stage in industry).
- Knowledge of the principles of management, marketing, promotion, finance and sales.

# Computer Science Technology

Computer Science Program (420.B0)

## About the program:

A three-year career program designed to provide you with a strong background in object-oriented methodology, particularly in program design and system analysis. Web concepts are integrated into a majority of courses and focus on the development of dynamic database-driven web applications on a variety of operating system platforms. The program will focus on computer programming, operating systems, database and web technology, data communication and networking, security and advanced programming languages.

As a student of this diploma program, you will learn in an environment where classes are given in modern facilities and where every course uses a combination of class and laboratory time. The software used in this program is constantly updated with the latest versions. As a bonus, each student benefits from access to the same software for use on their own devices as part of our academic alliances with software vendors.<sup>1</sup>

Our staff, faculty and student advisors are committed to helping you succeed and prepare for a stage-training program in Semester 6, which is given in an external business institution.

The Computer Science Technology program features a well-rounded blend of technologies that will prepare you to graduate as a developer, technician, or administrator of technologies in a variety of industries. Our advisory committee of IT business professionals reviews the offerings each year and provides us with suggestions to adjust the curriculum to reflect current and forecast computer technology needs.

<sup>1</sup> This program is BYOD (bring your own device) friendly. Software will be available for installation on your device. Please contact the department for recommended configuration.

### Where this program can take you:

The program prepares you for a wide range of careers such as a software developer, information systems specialist, PC specialist and more. The technical and business skills you will learn in the Computer Science Technology diploma program will qualify you for some of the most dynamic in-demand jobs in the computer industry today. Students could also choose to pursue university studies in many fields including software engineering, business or other science programs.

### Skills Acquired in the program:

Client-server Development, Cloud Development, Computer Programming, Computer and Networking Support, Database Design and Administration, Gaming, Internet of Things, IS Security, Modern Systems Analysis and Design, Mobile App Development (Android and iOS), Problem Solving, Operating Systems Object Oriented Methodology, Software Design.

## Semester Breakdown:

Shaping a New Generation

### Semester 1

1	Computer / IT Fundamentals
2	Object Oriented Programming with Java 1
3	User Experience / Web Interface Design
4	Math for Computer Science
5	English
6	Humanities
7	French
8	Physical Education

### Semester 2

1	Configuring, Managing and Maintaining Computers
2	Object Oriented Programming With Java 2
3	Operating Systems using Linux
4	Web Programming and JS Libraries
5	Project Management with Quantitative Methods
6	English
7	Humanities
8	French

### Semester 3

1	Database Design and Introduction to SQL
2	Networking and Security
3	.NET Development
4	Java Web Programming
5	Introduction to IoT (Internet of things) & Embedded Systems
6	Fundamentals of Business and Entrepreneurship for IT Professionals
7	English
8	Complementary
9	Physical Education

### Semester 4

1	Web Development with PHP
2	Systems Analysis and Design
3	Mobile Application Development 1: Android
4	Game Development with the Unity Cross-Platform Game Engine
5	Web Services and Distributed Computing
6	English
7	Humanities
8	Physical Education

### Semester 5

1	Database Administration and Security
2	Mobile Application Development 2: iOS
3	Final Project 1
4	Azure for SQL Developers with ASP.NET and MVC
5	IoT: Design and Prototyping of Connected Devices
6	Professional Integration and High-Tech Entrepreneurship
7	Complementary

### Semester 6

1	Final Project 2
2	Internship (Field Experience)
3	Managing Big Data for Connected Devices
4	Comprehensive Assessment (Meeting The Graduate Profile)

# Student Life

Champlain College offers a variety of student centered activities on and off campus during the academic year. Whether it be academic based trips, student competitions or social community events, Champlain has a lot to offer. Our goal is to focus on the passions of our students and encourage them to be active participants and organizers in making their interests come true. We look to involve our students in cultural and community based experiences and events to widen their understanding and knowledge of the Champlain community.

Students are encouraged to get involved and make their experience at Champlain College a memorable one. Download the Go Champlain App to bring campus life to your fingertips and connect with the Champlain College Saint-Lambert community.

---

## Champlain Students Embrace Diversity

---

Students are encouraged to experience the varying cultures and community groups which make up our College. Each year, the GCI (Global Citizens Initiative) student committee organizes a variety of events such as Black History Month, Multicultural Week & the Montreal Cultural Tour to promote the importance of diversity and sense of community on campus. 1<sup>st</sup> year students are invited to attend and be active participants in the organization of the CGI committee.

---

## Champlain Student Association (CSA)

---

The CSA is an active agent for educational and social change on campus and plays a key role in the funding and organization of student clubs and events. The CSA encourages active participation in student life for all Champlain students and can be reached at:

csa@crcmail.net (Office F-118)

---

## Campus Life Activities

---

Dependent on student interest, activities can include:

Animé/Video Game Over-Night Events, Art Festivals, Battle of the Bands!, Black History Month, Business Case Competitions, Winter Carnival, Champlain's Got Talent!, Charity Week, Commerce Games, Dance Shows/Contests, Earth Week, Earth Appreciation Day, Environmental Activities, Fashion Show, Financial Literacy Workshops, Food Drives, Food Fest, Green Committee, Honey Harvest, ILead Retreat/Workshops, Intramural Sports, Job & Volunteer Fair, Le Grand défi Pierre Lavoie, Lunchtime Aerobics/Open Gym, Math Contests, McGill Fest, Midnight Madness Sports, Model UN Competition, Movie Nights, Multicultural Festival, Music Shows/Concerts, Nursing Games, Poetry in Voice, Prix collégial du cinéma Québécois, Professional Development Workshops, Public Speaking Contests, Recreation & Wellness classes, Science Fair, Stand-Up Comedians, Programming & Engineering Challenge, Stress Awareness Week, Suicide Awareness Week, Semester Saver, Study Night, Theatre Productions, Tournoi jeunes démocrates, Weight Training.

---

## Student Clubs

---

- Amnesty International
- Anime Club
- Art Club
- Born This Way
- Blue Ink (Champlain Newspaper)
- Chess Club
- Christian Club
- Computer Gaming Club
- Code# Dance
- Entrepreneurship Club
- First Aid Team
- Gaming Club
- Green Team
- Champlain Music Society
- Model U.N. Champlain
- Muslim Student Association
- Photography & Cinematography Club
- Power to Change Club
- REACH Activity Day
- Robotics
- Science, On Tourne!
- Tabletop
- Tea Club
- Theater Society
- Video Gaming Club
- Volunteer Club

# Intercollegiate Athletics

---

## The Champlain Cavaliers

---

The Champlain Cavaliers Intercollegiate Program currently has 11 teams competing at different levels in the Réseau du sport étudiant du Québec (RSEQ). With almost 10% of the student population competing at this level, the Cavaliers have done very well, capturing numerous regional and provincial titles and making many appearances at the Canadian Collegiate Athletic Association (CCAA) National Championships in Basketball, Soccer and Cross-Country Running. With an over 90% graduation rate, quite a few of our student-athletes have gone on to compete at the USport and the NCAA levels while going to university; others have competed at the international level or played in professional leagues. The Cavaliers have a proud history. We want our student-athletes to develop and succeed in the classroom and on the field of competition. We want to see you become a part of that tradition.

---

## RTP Athletic Therapy

---

RTP Athletic Therapy is a private clinic that offers specialized injury management services including intervention, evaluation, treatment and prevention of musculoskeletal injuries, as well as bracing services and direct access to a variety of healthcare professionals. The clinic extends these services exclusively to Intercollegiate athletes most weekdays between 4:30 p.m. - 9:00 p.m., and works with student athletic therapy interns from the Concordia University Athletic Therapy Program to help all of our athletes get back in the game.

RTP is located in room D-123 next to the gymnasium and also offers private appointments to the Champlain community and to the public.

---

## Academic Coaches On Campus

---

Academic coaching is provided to each intercollegiate athlete by one or more volunteer staff or faculty members. Athletes meet with coaches on a regular basis throughout the academic year. This one-on-one relationship benefits our Cavaliers by developing stronger connections and a better understanding of the support services provided by the College.

---

## Champlain Cavaliers Teams

---

For more information on our Cavaliers teams, please visit:

[www.champlainonline.com](http://www.champlainonline.com)

---

## Intramurals, Open Gyms & Recreations

---

Full-time day students have the opportunity to participate in both indoor and outdoor sports and activities. Every day from 12:00 p.m. - 1:00 p.m., the Champlain gymnasium, fitness room and weight room are open for student use. Organized intramural league play takes place during the Activity Block on Wednesday between 12:30 p.m. - 2:30 p.m. There is a high emphasis on participation and a low emphasis on competition. Any and all skill levels are welcome. Games are played in the gym facilities, or outside on the nearby Seaway Park fields. Past intramural sports have included Badminton, Basketball, Cosom Hockey, Dodgeball, Flag-Football, Soccer, Ultimate Frisbee and Volleyball.

### 1. What are intramurals?

- Individual and team sport competitions open to all Champlain College full-time day students.
- All intramural sports programs are co-ed and open to all.
- All Intramural activities are free of charge.

### 2. Where / when do the events take place?

All intramural events take place on Wednesday from 12:30 p.m.- 2:30 p.m. in the gym or on the outdoor fields near the college.

### 3. Why should I play?

Intramural sports are fun and a great way to get your daily exercise, meet new people and relieve and reduce stress.

### 4. I have a sport or activity I want to play but it is not on the list?

Champlain College is always looking for new ideas. If you have an idea for a sport you would like to play, do not hesitate to contact us and we will do our best to make it happen.

---

## Athletic Services

---

With seating for 450 spectators, the gymnasium is the competition site for our Basketball, Volleyball and Badminton teams. Other facilities include:

- Fully equipped weight room with Universal™ gym and free weights;
- Cardiovascular training equipment by Life Fitness™ including upright and recumbent bikes, rowers and treadmills;
- Gymnasium, fitness studio and professional dance studio;
- Direct access to Seaway Park (1) for practices and Seaway Park (3) for Flag Football, Soccer and Football games.

# Fees, Financial Aid, Scholarships

## Student Fees Per Semester:

### For all students:

\$30 Application Fee
\$220 Semester Fee <i>(Includes optional \$15 Foundation Fee)</i>

### Additional Fees Required:

Quebec Non-Resident	International Students
\$1572 per semester*	\$6180 per semester*

All fees may be paid online through your Omnivox account

<p><b>Questions?</b></p> <p>Call us at 450-672-7360 Ext: 3217</p>
---

\* Fees are subject to change without notice

## Financial Aid

Located in the Student Services, the financial aid office works with students to ensure they have the financial resources to remain in school. This can include financial planning, government loans, bursaries, the College Foundation emergency loan program, the food bank and the College community kitchen.

## Scholarships

Champlain College Saint-Lambert offers a Scholarship Program for incoming, current and graduating students. The value of each entrance scholarship is \$750. The scholarships are awarded to the student in each program with the highest entering academic average among students with averages of 80% or higher. Scholarships totalling approximately \$10,000 are awarded each year.

Scholarships valued at \$750 are also awarded on behalf of the Fédération des Caisses Desjardins du Québec to students who have the highest cote de rendement (R-score) midway through their program to help them complete their college studies. Over \$13,000 in scholarships are awarded each year. At the end of their studies, graduating students are eligible for various awards, medals and prizes such as the Lieutenant Governor Award, the Board of Governors Award and the Quebec Association of Retired Teachers prize. Champlain College Saint-Lambert is proud to have mentored four winners of the prestigious Loran Scholarship (valued at approximately \$100,000) and most recently the recipient of a Schulich Leader Scholarship (valued at \$80,000). Our graduates have also been awarded entrance scholarships to universities such as McGill, Concordia, Université de Montréal, HEC and Queen's University.

# How To Apply?

## Advanced Standing Applicant

Students applying from other Quebec Cégeps, private colleges, and other government-approved college level institutions must submit a student copy of their transcript when applying. Upon admission, their official marks will be obtained directly from the Ministry of Education and will be integrated into their Champlain College Saint-Lambert record. Not all courses will necessarily be integrated.

## Equivalence

Equivalences for courses taken at post-secondary institutions other than Quebec Cégeps, private colleges or other government approved college level institutions are considered on a course-by-course basis by the Academic Advisors in consultation with the appropriate Department Coordinators. Credit will not automatically be given for years or full semesters of study. Champlain College Saint-Lambert does not normally grant equivalent credit for courses followed at the university level. No request for equivalent credit will be considered until the following documentation has been submitted:

- A detailed description of the course content
- An official transcript

Applicants can apply by accessing the College website at:

[www.champlainonline.com](http://www.champlainonline.com)

Application Deadline:

March 1<sup>st</sup> for the Fall Semester  
November 1<sup>st</sup> for the Winter Semester

# Still Have Questions?

---

Come meet us at the: Open House  
Sunday, November 1, 2020  
1:00 P.M. to 4:00 P.M.

Take a campus tour and visit our library, science labs, student space, cafeteria and more. Meet with faculty and staff to learn what Champlain College Saint-Lambert has to offer you on your road to success.

You can also visit us at the:  
Information Evening  
Thursday, February 4, 2021  
6:30 P.M. to 8:30 P.M.

We will answer all your questions in time for the March 1<sup>st</sup> application deadline.
