

General Social Science Option

Social Science Program (300.A0)

About the program:

The general option of the Social Science program allows students the greatest amount of flexibility when selecting social science courses. It allows you to explore the social sciences before making a commitment to a particular subject or area of study. It provides you with a strong background in the seven social science disciplines that will allow you to pursue studies in many programs at university.

Structured and organized:

Teaching in our Social Science program is structured to ensure that courses complement each other. This coherence assures that what you are learning is both practical and purposeful while preparing you for university studies. Social Science is the study of human behaviour and social phenomena through the use of a wide variety of both qualitative and quantitative methods. Social Science involves many bodies of knowledge including anthropology, economics, geography, history, political science, psychology and sociology. Through a variety of courses, students will have the opportunity to study human interactions with other individuals, groups, institutions, cultures and societies using the tools and methods of a social scientist.

The learning is dynamic:

In addition to traditional class lectures, teachers use a wide variety of teaching methods to keep classes interesting and dynamic. Multimedia, computer simulations, sources from current events and the news, and debating are all part of teaching and learning at Champlain College.

Where this program can take you:

Communications, Geography, Education (Including Physical Education), English, Sociology, Religion, Specialized Writing (Economics, History, Politics), Industrial Resources, History, Law, Foreign Affairs, Anthropology, Journalism, Philosophy, Social Work, Public Affairs, Literature, Political Science

In this program, you will learn to:

- Communicate ideas clearly in written and oral formats.
- Work effectively as a member of a group.
- Use strategies that allow you to reach your short and long-term goal.
- Develop comprehensive research skills.
- Mathematics is available to students who want to meet certain university program entrance requirements. Some restrictions may apply.

Our teachers are dedicated:

The teachers work together with students to discuss, examine and debate current social issues and to ensure that students are well prepared for university.

Application Deadline: March 1st for the Fall Semester

Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Règlement sur le régime des études collégiales, they may be refused admission due to lack of space.
